

Open wound felt in the physical and spiritual Russian people

Open wound felt in the physical body and spirit of the Russian people. St. - Petersburg terrorist act outraged us. Our sincere condolences. Be strong Mr. President Vladimir Putin. We Romanians know what such atrocities. We supported and we incur today. Molotov-Ribbentrop Treaty was drawn, abusive, a new border within Romania, fractured ethnic and territorial unity of the Romanian people. Romanian people is crucified. God exists! Jesus is the Way, the Truth and the Life. Who renounces truth, is not God's way, but falls between adversaries, cunning and evil. For a long time it would be tracing the peace in this geostrategic space, but Moscow Soviet, not only ignored the word of God, but also terrorized Christians. State terrorism. For quarter of a century, Russian Orthodox Church is unhindered in his work, with full support from the Russian leadership. However the governing bodies of the Russian Federation ignores the truth, leading humanity in a way contrary to God by way of abuse of power towards military confrontation. We, as Christians, we know that truth is eternal. Russian Federation can enroll history this truth fully. Ignoring Truth scored Russian Federation on a dangerous road. We are sure that you, Mr. President Vladimir Putin's, you realize that this road has no way out, certainly no war. Meet Mr. President Donald Trump, not kneel peoples. The meeting invited someone, Jesus.

Way for the resumption of economic relations between the Russian Federation and the European Union passes through Transnistria

**Dear Mr. Donald Trump, President of The United States of America,
Dear Mr. Vladimir Putin, President of the Russian Federation,**

Unconditional unification of the Republic of Moldova with Romania, Transnistria part unconditionally within Moldova's territorial unity, should be considered a priority. Moldova's union with Romania without Transdnierster

would retain military tensions between the European Union, Ukraine, NATO and the Russian Federation. The relationship between the Russian Federation and U.E. not normalized nor long course of history, nor race average, only term, time limited. Normalization of relations between the European Union and the Russian Federation will bring major benefits in a geostrategic space, the de facto consequences of the Molotov-Ribbentrop Treaty have not been removed. Russians, Russian neighbors who lived in Romania, as vectors successfully between the Russian Federation and the European Union. Moscow, blocking the union of Transnistria as part of Moldova's territorial unity, complicates economic and strategic issues of the Russian Federation.

**Dear Mr. Donald Trump, President of The United States of America,
Dear Mr. Vladimir Putin, President of the Russian Federation,**

Please consider the “ de facto” ending of the World War II. According to the treaty between nazi Germany and CCCR (Ribbentrop – Molotov Treaty), the most eastern part of Romania was taken, the Russian imposing a new border between Romania and CCCR on Prut river inside Romania national borders. By “the eastern part of Romania” we mean the Romanian historical provinces of Bassarabia, Northern Bucovina and Herta. When a country attach to its territory another which does not belong to it, falsifies history, indoctrinates the people to believe that the newly connected part actually belongs there. This is what happened with Hungary in the western part of Romania and, in solidarity, on the eastern part with CCCR and Ukraine.

Hitler: “Without the contribution of at least 4-5 million tons of Romanian oil, we could not go to war”, “Romania will have to be shrunk also for political reasons, because the Romanian people, a democratic one, is beside England and France, so the Axis does not agree with a big Romania that can have a leading role in Balkans. ”

Following Moscow’s ultimatum to Romania on 26.06.1940, the red army enters and conquers the northern part of Romania. This fact makes

Hungary to do the same with Romania's north-western territory on 30.08.1940, according to the Vienna Dictate imposed by Nazi Germany and fascist Italy (this territory was recovered by the end of the war), allowing Germany to advance close to the oil areas of Romania. In the new territories Hungary starts the Jew Holocaust, sending to Auschwitz 166 000 persons. CCCR proposes a common frontier between Bulgaria and Russia by splitting Dobrogea, the maritime zone of Romania. Hitler compels Romania on 7.09.1940 to renounce in the benefit of Bulgaria, to the south-eastern part of Dobrogea area (the so called Cadrilater). By the previous CCCR proposal, Romania should lose all its territories at the Black Sea, and as consequence Moscow will have the complete area control. The alliance between Germany-CCCR- Hungary and Bulgaria against Romania favoured CCCR and Germany geopolitical position, Romania remaining with no military solution. Hitler enters Romania without military conflict and the Germans take control of the Romania's army and internal decision factors. Hitler asked field marshal Antonescu to implement Jew's liquidation policies, but Antonescu refuses and the Romanian government acts to protect the Jews from the occupied north-western territories. The Jew population from inside Romania continues their existence, in the same war conditions that affect all the population of the country. All this happened between 1940 and 1941. The Field Marshal Antonescu starts the offensive to free the eastern Romanian territories from CCCR occupation on 22.06.1941 .

Dear Mr. Donald Trump Dear Mr. Vladimir Putin
Dear readers,

Please remark that Hitler and Stalin are active even today, provoking great suffering and military conflict in the area between the Russian Federation, Ukraine and Romania (EU member), representing a real danger to peace in the region by allowing the possibility of a military conflict with dire consequences. For the stability of this area all we need is one more diplomatic effort and the will for peace. For this area Ribbentrop-Molotov Treaty is still active, because its consequence has never been cancelled. The Moldavian Soviet Socialist Republic was founded by Moscow on 2.08.1940 at lasted till 27.06.1991, when became The Republic of Moldavia, independent, detaching itself from CCCR. We have to take into account the fact that this republic was founded on Romania's territory by a foreign power (CCCR), taken by force, according with Ribbentrop-Molotov Treaty. The territory that was taken by this treaty was reconnected to Romania between 1942 and 1944, but it was lost again. Also in 1944 the red army enters Romania from which it does not

leave until 1958. The treaty between Stalin and Hitler, by the vote of the Russian Duma from December 1989 is declared void and as a result the peace treaty of 1947 is also voided. This is also valid for Ukraine, at that time part of the communist Russia. In consequence the South and North of Basarabia , Herta and North Bucovina are unlawfully held by Ukraine For the nullification of this treaty also vote the Ukrainian deputies so their claim on this territories is null, this territories never belonged to Ukraine, then and now. On 24.08.1991 Ukraine becomes independent state.

Ukraine today, by holding on Romanian territories is the western soviet empire. The founding of the Soviet Republic of Moldavia, on the middle part of Basarabia, it was a sabotaging act with 2 purposes:

1. The breaking of the territorial and ethnical unity in the eastern part of Romania, area with a compact Romanian majority.
2. The attachment at SR Moldavia (so in CCCR borders) of the rest of the eastern part of Romania, between Prut River and the Carpathian Mountains.

The Ribbentrop-Molotov Pact means the detachment of the eastern parts of Romania and Poland, the attachment of Finland and the Baltic Countries. Michail Gorbaciov will recognise the independence of Estonia, Latvia and

Lithuania, also the independence of Ukraine, starting in fact the ending of the Ribbentrop-Molotov treaty consequences. Only the comrades from Romania opposed this, extremely serious. Mihail Eminescu, considering Bassarabia, exposed the simple truth that a right is not lost, except if you agree to that. The Helsinki Pact approves border modification in a peaceful way. Borders imposed by the Ribbentrop-Molotov have been modified, but other borders also. Federal Germany united with Democratic Germany, the Baltic Countries became independent, also Ukraine and Moldavia, Czechoslovakia split in Czech Republic and Slovakia, but also the Romanian eastern territories has to reconnect with their mother country - Romania Is clearly understood that the non conditional Union between Republic of Moldavia and Romania, in its integral form, has to be done without any adverse interventions by Moscow. Moscow has kept in Moldavia anti-union imperial soviet dedicated structures. It is the time of truth and justice Mr. President Vladimir Putin. The advantages for Russia, EU and Romania are huge. The trust can be won only by the real cancelation of the Ribbentrop-Molotov Treaty.

Dear Mr. Vladimir Putin, unfortunately Mr. Donald Trump put you in a very difficult spot

The verve that Donald Trump addresses to the American people, shows us the candour in his heart, the sincerity, his love for the people, for his country, for God. It is a precious beginning. With sincerity he will meet you, Mr. President Vladimir Putin. You will be in difficulty all along the time of your meeting with the President Donald Trump. We never expected from you to offer to Mr. Igor Dodon, the president of Moldavian Republic a map of Moldavia. The Romanian people was spread over 3 countries : Transylvania, Valachia and Moldavia. The union in a single state of the Romanian people started in 1859, by the Union of Valachia and Moldavia under the name of Romania. The map that we mentioned is dated from XVIII th century. In 1812, the Russian Empire annexes the Moldavian lands situated between rivers Prut and Nistru, called Basarabia. Igor Dodon, the president of the Moldavian Republic looking at the mentioned map mentioned: "If the Russian Empire didn't have stoped at the Prut river we would have had now a whole Moldavia." . Mr. Igor Dodon, in this situation, we would have been speaking now in fact of a fully conquered Moldavia. The real wholeness of Moldavia is the union between Moldavian Republic and Romania. The Moldavian Republic is built on the middle part of Basarabia. The Union took place in 1918, by the willingly return to Romania of Basarabia and Bucovina. Mr. President Vladimir Putin, through this maps you made a media aggression, a threat to Romania, to extend your borders in Romanian territory, from the border that Stalin established on Prut river to the Carpathian Mountains.

The Russian Federation is the legal heir of USSR. You, Mr. Vladimir Putin prove to be the heir of Iosif Visarionovici Stalin. By the treaty between USSR and Germany fom 1939, Stalin established a border in the interior of Romania and also did the same with Poland, Estonia, Latvia and Lithuania. By this treaty one of the most heavy crimes against humanity was made. The Moldavian Republic is a part of Romanian territory annexed by Stalin in 1940 and in 1944. Mr. President Vladimir Putin with such a position from the Russian Federation are you meeting with Mr. Donald Trump? Is a public position very good covered in media. Stalin advanced his proposal to Hiltler and Hitler agreed.

The military alliance between Romania and USA was established between Bucharest and Washington and the decisions will be taken also in Bucharest and Washington.

WE wrote you in good will, proposing a peaceful resolution on the long run of history . We had new proposals, that Moscow we hoped to adopt, but your message with the map erected wall which proved to be a obstacle in the way of your public perceptiveness and your political international plan. There is one way, as we see it, for the situation resolution, to declare that the media coverage of the Moldavian map situation was a mistake and you regret this.

Another letter addressed to Mr. Donald Trump, President of the United States

Dear Mr. Donald Trump, President of The United States of America,

Romania erupted in protests against the government. In this context, some news are circulating in the media and by word of mouth about your position in

connection with Romania. It is suggested that the president Donald Trump is not a trusted ally of Romania, but in agreement with Russia and Germany he accepted the federalization of Romania. Russia would control the federal state of Moldova, Germany and Hungary, the federal state of Transylvania, Russia and Bulgaria the federal state of Dobrogea, and we Romanians, the state of Valachia. That such evil plans are not new, I reported in two letters sent to you. It's the past. **My belief: rumors that are circulating today are part of the media war of Moscow.** By suggesting the federalization of Romania, it was tried an outbreak of local wars, which would favor Russian Federation proximity with Austria. Certainly, this is in the interest of Russia and Germany. Which countries would be at loss? US and Romania. You have to admit that Moscow took advantage in the media war in the US presidential election period and in the period from winning the election until the moment of your inauguration. Russian media has gained ground. Moscow had time to reactivate networks in Romania that can trigger internal conflict, with dangerous consequences. Romania is a NATO member. Romania and the US are trusted allies. We are sure of your loyalty. Territorial unity of Romania is guaranteed by the US military presence in our country. Even in this February, 2017, US military units arrive in Romania. https://www.realitateea.net/sute-de-militari-sua-inso-i-i-de-tancuri-abrams-i-mortiere-vin-in-romania_2030474.html <http://www.ziare.com/stiri/armata/sute-de-militari-americani-sosesc-in-romania-cu-tancuri-si-blindate-foto-video-1452935> "Romania is approaching the situation in 1940 of international isolation. I do not know if the issue of borders will be challenged, but can Romania be effectively defended - in the perspective of 2018! - if the question of regionalization / federalisation will appear, as a solution to the "ethnic problem" invigorated in Budapest?" The insinuation of a former Prime Minister, that Donald Trump would conspire against Romania should not be ignored. Adrian Nastase, the former Prime Minister, continues: "Perhaps such scenarios will prove to be only forms of intoxication". This material signed by Prime Minister Adrian Nastase had a good reception in the media. <https://adriannastase.ro/2016/09/08/autarhia-ca-forma-de-stat/>. He is skilful. Conceals. Smokescreen to for protecting the work towards the federalization of Romania by the union, as a federal state, of Republic of Moldova with Romania. The situation would trigger the federalization of Romania, with a known ending, the taking under administration political and economic of Transylvania, as an "independent" country by Germany, Hungary and Austria, and by Russia, of the eastern half of Romania. Activity for the federalization of Romania by unification with Moldova is supported internally and externally. Internally, should know what it is about SRI (Romanian Intelligence Service) and the SIE (Foreign Intelligence Service), the pro-Moscow governors, from December 1989 until today. Presumably the pro-Moscow people are still in the Romanian state structures. About that should have the knowledge CIA and US Embassy in Romania.

Romanian people's right to exist in their own country has been given by God. We are geographically positioned at the meeting place of three former empires, the Austrian (Austro-Hungarian Empire between 1867-1918), Turkish and Russian. Now put into operation a new understanding between Moscow and countries west of Romania, a treaty similar to that of Nazi Germany and the USSR, 1939 (Molotov-Ribbentrop Treaty).

(<http://www.noidacii.ro/Nr.89,%202016/Vladimir%20Putin%20%C5%9Fi%20Donald%20Trump.pdf>) It is intended to dismember Romania's territorial unity, to no longer be any country that separate them. CIA (Central Intelligence Agency) knows well. I think I have informed you with outmost precision about the fact related in this article. I'm not a man to panic. I'm here, with the Romanian people, from thousands of years. We will continue to be. We are correct in our relationship with the US. God bless Romania and the USA.
